

NEWPORT  
COLLECTION  
VENIS®

# *Newport: the charm of the passage of time*

*Venis has elegantly recovered the appearance of renovated floors and walls in historical buildings, to achieve a collection with a worn down yet modern look, which naturally conveys the effects of the passage of time, creating welcoming rooms.*

*Let's discover the new Newport collection of ceramic flooring and coverings by Venis. White, Beige, Natural, Gray and Dark Gray are the five basic colours available for the floor and wall coverings which complete the tonal palette of the Newport collection with which Venis has charmed once again this year.*

*As well as the basic range Venis has extended the possibilities for wall decoration with five versions of reliefs also offered in the available colours.*

*This is a variety of prints which increase the aesthetic power of ceramic, converting it into an extremely beautiful surface and with a pleasant touch capable of bringing warmth to floors and walls in all types of environments.*

*The subtle lines of Avenue and Century, the irregular grooves of Old, and the undulating patterns of Island and Park seem designed to set the next trends in interior design.*
